

# Read These Wise Words

In my many years I have come to a conclusion that one useless man is a shame, two is a law firm and three or more is a congress.

~ John Adams

A government which robs Peter to pay Paul can always depend on the support of Paul

~ George Bernard Shaw

Foreign aid might be defined as a transfer of money from poor people in rich countries to rich people in poor countries.

~ Douglas Casey,

Classmate of Bill Clinton at Georgetown University

The inherent vice of capitalism is the unequal sharing of the blessings. The inherent blessing of socialism is the equal sharing of misery.

~ Winston Churchill

A government big enough to give you everything you want, is strong enough to take everything you have.

~ Thomas Jefferson

## SPREAD THE STUPIDITY

Only in America ... do drugstores make the sick walk all the way to the back of the store to get their prescriptions while healthy people can buy cigarettes at the front.

Only in America ... do people order double cheeseburgers, large fries and a Diet Coke.

Only in America ... do banks leave both doors open and then chain the pens to the counters.

Only in America ... do we leave cars worth thousands of dollars in the driveway and put all our useless junk in the garage.

Only in America ... do we buy hot dogs in packages of ten and buns in packages of eight.

Only in America ... do we use the word "politics" to describe the process so well: "poli" in Latin meaning "many" and "tics" meaning "bloodsucking creatures."

Only in America ... do they have drive-up ATM machines with Braille lettering.

### The Toucan

Tell me who can catch a toucan?  
*Lou can.*

Just how few can ride the toucan?  
*Two can.*

What kind of goo can stick you to the toucan?  
*Glue can.*

Who can write some more about the toucan?  
*You can.*

~ Shel Silverstein

**BRAG TIME!**  
Radiator sold 1974, all new seals and ten new tubes September 2009.  
**Back to work**

Close up of new  
bottom seals

Close up of new top seals. Notice that tube ends have been buffed.

The radiator pictured on the front was manufactured by L&M Radiator in 1974 and sold to a forest products company located in northern Minnesota. The radiator is from a chipper, which is a machine that chews up trees to make chips used mostly in papermaking. This particular machine is a Precision 84 inch chipper powered by a 420 hp Cummins engine.

Granted, a chipper is not a 24/7 operation like a mining truck, and probably not even a twelve month per year operation; however, we are still very proud of a radiator that has worked for 35 years and going back for more (another 35 years?).

All the seals were replaced and something like ten tubes as well, when we reconditioned the radiator in September of this year.

*Alex Chisholm*

Lower half of the radiator showing a lot of discoloration, but tubes in good enough shape to keep on working.
